

Cooperative Communications, Inc.

OUR PRODUCT

Cooperative Communications has established a Co-Location facility to address the requirements of medium sized businesses that need a primary or secondary back-up solution to their data network. With **Cooperative Communications**, companies can now install their data servers in a hardened communication building that is equipped with redundant power including battery backup, a separate generator and is served by a SONET fiber-ring architecture to insure high network availability.

Cooperative Communications customers can now lease space in a shared environment for all their critical data applications. Cooperative's **QuickServer-Protection** solution offers a dedicated rack, multiple internet connections, flexible pricing plans and space configurations to meet the most demanding needs of our customers.

OUR ADVANTAGE

- Hardened communication facility served by a redundant network and power supply
- Secure rack-mounted cabinets
- Custom cage and solid wall spaces available
- Flexible pricing terms and conditions
- Scalable bandwidth
- Redundant Internet Connections
- Guaranteed up-time
- 24X7 Access
- Technical Support

QUICKSERVER-PROTECTION – "A disaster Recovery Solution"
